Dear Henri,

Thank you so much for getting in touch with the Parish Council via our website. We were not aware of the incident with regards the resurfacing of Uplands and are sorry to hear that it had such a poor outcome.

It would help us a lot if we could make use of your letter in our next communication with Bradley White at the Bridport News. Would you have any objection to us doing this?

I would be grateful if you could let us know either way by return, as newspapers work very fast.

It would also be helpful if you could log onto the Dorset Council website and leave your comments on their Community Governance survey. The link for doing this is:
