18th October 2019

Dear Blair

RE: WALDITCH SPEED LIMIT

You may recall in the early part of 2019 a Traffic Regulation Order was received from the Community Highways Team for a 30mph limit for Walditch.

Mike Potter sent an email in January showing the extent of the limit agreed by the Community Highways Team and confirmed in this email that the request is part of the 2019/20 TRO programme. He confirmed also that the process to consult on the proposed 30mph will begin in 2019/20, however we are still waiting for the consultation process to begin.

We realise that with the Dorset County Council re-organisation officers have changed and workloads have no doubt increased, but we would have hoped to have heard something from Dorset County to confirm that the consultation process would commence as promised and perhaps a date on which this would begin.

Are you in a position to let us know any future progress in this matter?

Yours sincerely,

A J Basker
Chairman
Bothenhampton & Walditch Parish Council
